

# DIY BUBBLE WANDS

# DIY BUBBLE WAND

*Supplies needed:*

---

- Pipe Cleaners
- 10 Beads
- Cookie Cutters
- Scissors
- Bubble Solution

# DIY BUBBLE WANDS

## *Instructions:*

---

1. Wrap 1 pipe cleaner around a cookie cutter, twist where the two ends meet and cut off any excess pipe cleaner. 2 inch cookie cutters work best for this pipe cleaner craft.
2. Use a second pipe cleaner and loop it around the bottom of the shape pipe cleaner made in step one. Twist where all the pipe cleaners meet to secure. This is the handle for the bubble wand.
3. Lace beads through both ends of the pipe cleaner handle. Once you have put beads on the entire wand handle fold the remaining pipe cleaner up to keep the beads from falling off.
4. Dip these adorable DIY bubble wands into bubble solution and let your kids blow fun bubbles all day long.

Ta-da!
